

CONTENTS

Optimal location of arch bracings in arch bridges for maximum buckling load <i>Jin Cheng, Jian Ni, Lijun Jia, Rucheng Xiao</i>	1-8
A special problem of reclining bridges <i>Tassos P. Avraam</i>	9-24
Fatigue life evaluation of Rion - Antirion cable-stayed bridge using the multiscaling fracture mechanics approach <i>Dimitrios Zacharopoulos, Thomas Panagiotopoulos</i>	25-36
Resilient and sustainable bridges of the future <i>M. Saiid Saiidi, M. Tazarv, B. Nakashoji, S. Varela, F. Kavianipour</i>	37-48
The influence of curvature and other parameters on the dynamic behavior of curved bridges <i>Tassos P. Avraam, George T. Michaltsos</i>	49-76
