

CONTENTS

Letter from the Editors	1-2
Static and dynamic nonlinear modelling of long-span cable-stayed bridges D. Bruno, F. Greco, P. Lonetti	3-27
Rain-wind induced vibrations in stay cables - Response characteristics, excitation mechanisms and modelling D. Sophianopoulos	29-36
Analytical studies of the seismic performance of a full-scale SMA-reinforced bridge column M. Tazarv , M. Saiid Saiidi	37-50
The influence of prestressing on the stability of the main beams of a low-passage bridge Th. Konstantakopoulos	51-65
Effects of the soil-structure-interaction on the regular seismic behavior of bridges M. Petronijevic, D. Ladjinovic, A. Raseta	67-80
Announcement of 2 nd IBSBI 2014 Int. Conference	81-82
